## PROFESSIONAL SUMMARY

Detail-oriented Computer Science student with practical experience in Full Stack (MERN) Development and a strong foundation in Data Structures and Algorithms. Proficient in building scalable web applications, designing RESTful APIs, and implementing secure authentication and authorization mechanisms. Focused on delivering efficient and reliable software solutions.

## EDUCATION

### Bachelor of Technology in Computer Science Engineering

2023 – 2027

Parul University, Vadodara

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming

## TECHNICAL SKILLS

**Programming Languages:** C, Java, Python

**Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS

**Backend:** Node.js, Express.js

**Database:** MongoDB, MySQL

**Concepts:** Data Structures and Algorithms, OOP, DBMS, Operating Systems

**Tools:** Git, GitHub, Postman, VS Code

## PROJECTS

### News Application | React.js, JavaScript

2025

- Created a responsive news platform by integrating REST APIs to fetch real-time data.
- Improved load efficiency by approximately 30% using lazy loading techniques.
- Structured modular components to enhance maintainability and scalability.

### CRUD Web Application | Node.js, Express.js, MongoDB

2025

- Built a full-stack application enabling Create, Read, Update, and Delete operations.
- Developed RESTful APIs to streamline communication between client and server.
- Applied input validation and error handling to ensure reliable data processing.

### Portfolio Website | React.js

2025

- Designed a personal portfolio website to present projects and technical competencies.
- Ensured responsiveness and accessibility across multiple devices.

### Tender Management System | MERN Stack

2025 – Present

- Developing a web-based system using MongoDB, Express.js, React.js, and Node.js.
- Implementing authentication and role-based authorization for secure access.
- Managing features such as tender posting, bid submission, and status tracking.
- Optimizing backend performance through efficient database queries and API design.

## PROFESSIONAL SKILLS

Problem Solving, Analytical Thinking, Team Collaboration, Leadership, Communication

## ACHIEVEMENTS

- Solved 300+ problems focused on Data Structures and Algorithms across coding platforms.
- Demonstrated consistency in improving logical reasoning and coding efficiency.
